Education

National Institute of Technology, Kurukshetra

Aug 2023 – Present

B.Tech in Information Technology

Key Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS, Machine Learning

RR Public School, Noorpur, Bijnor

2019 – 2021

Class XII (CBSE): **96.4%**

Class X (CBSE): **94.4%**

Technical Skills

- **Languages:** C++, Python, Java, JavaScript, HTML/CSS
- **Frameworks:** React, Node.js, Express, Flask, TensorFlow
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, Linux, REST APIs

Projects

Deepfake Detection Platform

[\[GitHub\]](#)

AI-powered solution leveraging deep learning and computer vision to detect manipulated videos.

- Spearheaded development of an ensemble CNN model using TensorFlow, achieving **90% accuracy** on FaceForensics++ benchmark dataset.
- Engineered a preprocessing pipeline with OpenCV, optimizing facial landmark extraction and reducing inference latency by **25% across 10,000+ video frames**, boosting model throughput.
- Deployed a scalable **Flask REST API** handling videos up to **200MB**, enabling seamless integration into client applications.
- Conducted hyperparameter tuning and ablation studies, improving subtle deepfake detection by **15%**.

Hospital Management Dashboard (MERN Stack)

Real-time web dashboard for hospital resource monitoring and reporting.

- Led full-stack development supporting **30+ patient records/sec** with **99.9% uptime**, enabling instant decision-making for hospital staff.
- Built responsive frontend with React + Tailwind and robust backend APIs with Express.js, reducing response times by **40%**.
- Integrated WebSockets for live updates, cutting manual tracking effort by **60%** and minimizing reporting errors.
- Designed and deployed a centralized access control system, securing sensitive patient data across multiple departments using role-based authorization.

Achievements

- Secured **2nd place out of 50+ teams** at University Hackathon 2024 by developing a predictive analytics dashboard.
- Represented NIT Kurukshetra at **Smart India Hackathon 2024**, selected among top 5 teams out of 40+ submissions.
- Qualified for **Excalibur Hackathon**, NIT Kurukshetra.
- Solved **400+ DSA problems** on LeetCode, GeeksforGeeks, and Codeforces, improving algorithmic problem-solving skills.
- JEE Mains: **99.1 percentile**, CBSE XII: **96.4%**, X: **94.4%**.

Leadership & Activities

- **Core Member – Technobyte:** Mentored **20+ juniors** in DSA and Web Development; led **5+ workshops** and collaborative coding projects, improving junior skill levels by **30%**.
- **Event Organizer – Techspardha:** Coordinated **5+ technical events** with **1000+ participants**, managing logistics, scheduling, and evaluations to ensure smooth execution.
